

Okta to Microsoft IdP Migration Services

Your Okta environment holds the essential structure of your security program. But you don't have to destroy your defenses to make a switch.

Sign-on vendors - such as Okta - have become prime targets for bad actors, and are making headlines in a bad way. Tevora gives you a safe escape route.

WHY ARE SO MANY SWITCHING FROM OKTA TO ENTRA (FORMERLY AZURE AD)?

Avoid vendor lock in and maintain control of your identities. Many identity providers are counting on vendor lock-in to maintain contracts. Meanwhile, they neglect to prioritize upgrades that satisfy and delight their existing customers.

High profile hacks mean a microscope on vendor selection. Identity resilience -the ability to recover after a compromise relating to your identity access management - is becoming a hot topic among executives and boards. When one IdP continually makes the news, tech leaders start to explore their options.

Cost savings and vendor consolidation. Many customers are opting to consolidate spending and reduce identity management complexity by moving to Microsoft Entra (formerly Azure AD).

CONSOLIDATE YOUR CLOUD IDENTITY MANAGEMENT ENVIRONMENT WITH MICROSOFT ENTRA

ASSESS

Perform discovery of Okta environment. Enumerate use cases and features that could be migrated from Okta to Entra and not any exceptions.

PLAN

Create project roadmap for migration including preparation of Entra-integrated applications, priming of user attributes that cannot be extracted from Okta, plan for asset migration and hard identity provider cutover.

BUILD

Execute the plan, perform go-live testing, user acceptance testing, documentation and training.

RUN

Be present for go-live and for a specific time afterward to ensure a successful migration.

Go forward. We've got your back.

Founded in 2003, Tevora is a specialized management consultancy focused on cybersecurity, risk, and compliance services. Based in Irvine, CA, our experienced consultants are devoted to supporting the CISO in protecting their organization's organizations, people, and assets. We make it our responsibility to ensure the CISO has the tools and guidance they need to build their departments, so they can prevent and respond to daily threats.

Our expert advisors take the time to learn about each organization's unique pressures and challenges, so we can help identify and execute the best solutions for each case. We take a hands-on approach to each new partnership, and—year after year—apply our cumulative learnings to continually strengthen the company's digital defenses.

AI SECURITY STRATEGY

Artificial Intelligence has prompted a new landscape of compliance frameworks, threat vectors, and security tools. We make it our job to understand and pioneer the security programs that account for—and take advantage of—all that AI brings to the table.

COMPLIANCE

The assessment is only the first step of your compliance journey. We'll help you understand your path to achieving and maintaining continuous compliance against the security and privacy frameworks you need to do business.

THREAT MANAGEMENT & RESPONSE

Whether proactive or in case of emergency, Tevora has your back in the face of threat actors. We offer comprehensive and targeted penetration testing, social engineering, and other tactics to find gaps before others can exploit them.

SECURITY INFRASTRUCTURE

Tevora takes a vendor-agnostic stance to help companies find the best fit software solutions for their security needs. And with knowledge of hundreds of solutions vendors across dozens of categories, we'll help you find your fit.

RISK & STRATEGIC SERVICES

Address risks before they become an issue. Proactive and comprehensive exercise to find and address weaknesses in your security program through Enterprise Risk Management, Third Party Risk Management, Business Continuity and Disaster Recovery exercises, and more.

RESOURCE AUGMENTATION

The complex and specialized work required by cybersecurity and compliance programs sometimes require a focused, expert resource. Tevora can supplement your internal team with flexible Governance, Risk & Compliance (GRC) support, expert DevSecOps support, or even executive-level CISO assistance.
