

FedRAMP CR26

CR26

Navigate the Consolidated Rules for 2026 with expert guidance from an accredited FedRAMP Recognized 3PAO, from operating-model readiness through Ongoing Certification.

WHAT IS CR26?

CR26, the Consolidated Rules for 2026, is the single operating model that replaces a decade of layered FedRAMP guidance. It governs both certification paths: the cloud-native FedRAMP 20x path and the control-based Rev. 5 path.

Under CR26, Authorization becomes Certification, continuous monitoring becomes Ongoing Certification, and document templates give way to machine-readable Certification Data published to a Trust Center. CR26 requirements become mandatory January 1, 2027.

The shift is operational. The reporting artifacts an organization can generate become the constraint on how efficiently it can certify and sustain certification, so preparation should begin well before the mandatory date.

CR26 READINESS ANALYSIS

We assess reporting and automation maturity against the CR26 rulesets and deliver a prioritized gap list and a phased modernization roadmap.

PACKAGE AND TRUST CENTER READINESS

We prepare machine-readable Certification Data, Security Decision Records, and a Trust Center strategy aligned to the published FedRAMP schemas.

ONGOING CERTIFICATION

We ready your program for continuous reporting, significant-change processes, and the three-month Ongoing Certification Report.

Go forward. **We've got your back.**

Founded in 2003, Tevora is a specialized management consultancy focused on cybersecurity, risk, and compliance services. Based in Irvine, CA, our experienced consultants are devoted to supporting the CISO in protecting their organization's organizations, people, and assets. We make it our responsibility to ensure the CISO has the tools and guidance they need to build their departments, so they can prevent and respond to daily threats.

Our expert advisors take the time to learn about each organization's unique pressures and challenges, so we can help identify and execute the best solutions for each case. We take a hands-on approach to each new partnership, and—year after year—apply our cumulative learnings to continually strengthen the company's digital defenses.

ACHIEVED ACCREDITATIONS

ACHIEVED ASSESSOR

AI SECURITY STRATEGY

Artificial Intelligence has prompted a new landscape of compliance frameworks, threat vectors, and security tools. We make it our job to understand and pioneer the security programs that account for—and take advantage of—all that AI brings to the table.

COMPLIANCE

The assessment is only the first step of your compliance journey. We'll help you understand your path to achieving and maintaining continuous compliance against the security and privacy frameworks you need to do business.

THREAT MANAGEMENT & RESPONSE

Whether proactive or in case of emergency, Tevora has your back in the face of threat actors. We offer comprehensive and targeted penetration testing, social engineering, and other tactics to find gaps before others can exploit them.

CYBER TOOLING

Tevora takes a vendor-agnostic stance to help companies find the best fit software solutions for their security needs. And with knowledge of hundreds of solutions vendors across dozens of categories, we'll help you find your fit.

RISK & STRATEGIC SERVICES

Address risks before they become an issue. Proactive and comprehensive exercise to find and address weaknesses in your security program through Enterprise Risk Management, Third Party Risk Management, Business Continuity and Disaster Recovery exercises, and more.

RESOURCE AUGMENTATION

The complex and specialized work required by cybersecurity and compliance programs sometimes require a focused, expert resource. Tevora can supplement your internal team with flexible Governance, Risk & Compliance (GRC) support, expert DevSecOps support, or even executive-level CISO assistance.
